"Promising Practices Classroom Activity"

Title of Activity: Breakout Boxes in the Elem. Math Classroom
Recommended to use with this number of students: 10-30
Content Area: All content areas (Math will be focus) Grade Level(s): All K-12
Match to Georgia Standard(s): All

Note: Use the remainder of this page and up to one additional page for describing the activity.

Breakout Edu.com has been a big hit to create critical thinkers. After seeing it used in other classrooms, I decided to apply the idea to my own classroom. The activity is PHENOMENAL! Students are engaged the entire time, multiple standards can be reviewed, students weaknesses can be targeted in a single time frame. I have loved using this concept with my students and they have loved it too!
